Anatomy in Clay® Centers Announces Groundbreaking Partnership With Colorado Learning Center of Human Anatomy

This unique collaboration will be evident at a group of groundbreaking two-day workshops at the non-profit Anatomy in Clay® Centers in Denver.

“These classes will rely on two proven techniques for learning anatomy, alternating back and forth between building clay onto model skeletal sculptures and examining the preserved cadaveric specimen,” said Anatomy in Clay® Founder Jon Zahourek. “We will build from inside-out and also examine outside-in, providing a fully immersive education. All

anatomy students quickly realize both the profound reality of our anatomy, but also the beauty of its underlying simplicity.”

Dissection, said Zahourek, has long been considered the traditional “gold standard” of anatomy study. Over the past 25 years, the Anatomy in Clay® Learning System has been adopted for use in over 10,000 classrooms around the United States and has been validated through 17 published university and medical school studies. In the Anatomy in Clay® approach, students learn hands-on construction of anatomical forms. The end result is a three-dimensional model from clay. Research has demonstrated that the Anatomy in Clay® approach results in improved long-term retention when learning human anatomy.

A Special New SERIES Collaborating with Colorado Learning Center of Human Anatomy (CLCHA)

Colorado Learning Center of Human Anatomy (CLCHA) was designed as a community resource in education of human anatomy and physiology through the art of dissection. In dissection, which relies on hands-on deconstruction of anatomy, students learn from the outside-in, memorizing three-dimensional anatomy in the process.

This class will be co-taught by Jon Zahourek and CLCHA founder Bev Boyer.

LOWER EXTREMITY

Friday, Oct 20 & Saturday, Oct 21

9AM - 6PM | \$480

PELVIC FLOOR

Friday, Nov 17 & Saturday, Nov 18

9AM - 6PM | \$480

SAVE \$100

- For workshops 8 hours or less in length, cancellation must be made 7 days prior to the start of class.
- For workshops 8 to 16 hours in length, cancellation must be made 10 days prior to start of class.
- For workshops 40 hours or more, cancellation must be made 21 days prior to start of class.
- After that Tuition paid may be transferred to a future workshop.

I HAVE READ AND UNDERSTAND THE WORKSHOP POLICIES (listed at anatomyinclay.com)

The ANATOMY IN CLAY® Learning System is used in thousands of classrooms world-wide. As supported by multiple research studies, it is a "best practice" for success in learning anatomy. In addition to better testing and retention, students appreciate the superior accessibility, satisfaction, and enjoyment gained with this kinesthetic process.
